

2024 Subject Index

Title	Page
A case report of history of anterior myocardial infarction complicated with left ventricular pseudoaneurysm	24
A large pericardial cyst causing persistent chest tightness and dyspnea: a case report	39
Balloon embolization of bronchial artery: a new technique in massive hemoptysis	67
Chronotropic incompetence in coronary slow flow	72
Comparison of carotid intima media thicknesses of hypertension patients with normal coronary artery who are under effective antihypertensive therapy with the normal population	6
Concomitant pulmonary thromboendarterectomy and supracoronary ascending aorta replacement: a case report	64
Current approach to resistant hypertension	53
Current approach to venous catheterization in hemodialysis patients and important points	15
Electrocardiographic indicators of atrial fibrillation in obstructive sleep apnea syndrome: a retrospective analysis of P wave peak time	79
Giant mobile thrombus in left atrium	34
Hypertensive emergency: diagnostic and therapeutic strategies	56
Investigation of serum copeptin levels in patients with congestive heart failure	27
Investigation of the relationship between nutrition and coronary slow flow-coronary ectasia in patients with acute coronary syndrome	89
May high blood viscosity predict cardiac involvement in COVID-19 patients?	9
Mitral annular disjunction as the cause of malignant ventricular arrhythmia in a young adult: a case report	61
Primary left atrial rhabdomyosarcoma in a 42-year-old patient: an unusual cardiac tumor presentation	31
Renal denervation for resistant hypertension in an elderly patient despite quintuple antihypertensive therapy: a case report	36
Spontaneous recovery in the early period of cardiac remodeling due to carbon monoxide poisoning	21
The effect of anxiety on metabolic parameters in patients with primary hypertension	42
The impact of body mass index on intraoperative and postoperative blood transfusion amounts in coronary artery bypass surgery	96
The impact of systemic immune inflammation index and neutrophil/lymphocyte ratio on mortality in patients undergoing surgery for infective endocarditis	83
The relationship between exercise-related hypertension and carotid artery intima media thickness and brachial artery endothelial function	48
The relationship between the ABO blood group and chronic venous disease in deep vein thrombosis	1
